Primary NAICS:

488510, Freight Transportation Arrangement

Secondary NAICS:

236220, 237990, 238290, 541330, 541511, 541512, 541513, 541519, 541990, 541611, 541614, 541618, 541620, 541690, 541715, 561210

As an ANC subsidiary and an SBA-certified 8(a) company, AOR may accept direct awards up to \$25 million for Civil agencies and \$100 million for the Department of Defense (DoD), without formal justification, and which are unrestricted by normal 8(a) award ceiling provisions (FAR 19.808-1).

DIRECT AWARD LIMITS - NON-PROTESTABLE (13 CFR 124.517)

Offers transparency in resourcing and price negotiation, and reduces procurement timelines.

>\$25M

Non-DoD Agency greater than \$25M requires J&A

<\$100M

DoD, less than \$100M can be approved by the Procuring Agency or Designee

>\$100M

DoD, greater than \$100M requires J&A-delegated to Procuring Agency or Designee

\$ UNL

No limit at Secretary Level

Accelerated acquisitions ≤(30 days)

Non-protestable procurements

A sole source procurement under the provisions of FAR 19.805-1(b)(2) and 13 CFR 124.506(b), provides federal agencies with a streamlined and flexible procurement strategy.

AOR SOLUTION EXAMPLES

Transportation Coordination. AOR offers comprehensive transportation management services, including coordinating transport on commercial and government air carriers, ocean transportation involving full container load (FCL) and less than container load (LCL) shipments, ground transportation solutions involving less than truckload (LTL) and full truckload (FTL), and arranging for specialized shipping for oversized and heavyweight project cargo, to ensure the rapid and secure delivery of goods to their destination.

Import and Export Compliance. AOR ensures that shipments comply with all relevant import regulations, managing documentation and customs clearance processes for a smooth and hassle-free experience. For outgoing shipments, AOR adheres to export regulations, including ITAR and EAR, to prevent the unauthorized transfer of sensitive goods and technology.

Consolidation & Deconsolidation. AOR consolidates smaller shipments into a single container to reduce shipping costs and then deconsolidates the shipments at the destination to facilitate efficient distribution. Our deconsolidation services ensure that goods are distributed to their final destinations, minimizing delays, and improving overall supply chain efficiency.

Insurance Services. AOR arranges comprehensive cargo insurance to protect shipments against loss or damage during transit, providing clients with peace of mind. Our risk management services help clients identify and mitigate risks, ensuring a smooth and secure shipping process.

Documentation. AOR prepares and manages bills of lading to serve as a legally binding document between the shipper and carrier, detailing the goods shipped and their intended destination. We manage the preparation of commercial invoices, which provide essential information about the shipment for customs clearance and taxation purposes. AOR also assists in obtaining and managing certificates of origin, which certify the country of origin of the goods being shipped and are often required for customs clearance.

Track & Trace. AOR provides clients with real-time updates on the status of shipments, ensuring transparency and visibility throughout the shipping process. We also use state-of-the-art tracking technology to monitor shipments, providing clients with accurate, up-to-date information on the location and status of their cargo.
