236220, 237990, 238290, 488510, 541330, 541511, 541512, 541513, 541519, 541990, 541611, 541614, 541618, 541620, 541690, 541715, 561210

As an ANC subsidiary and an SBA-certified 8(a) company, CSCS may accept direct awards up to $30 million for Civil agencies and $100 million for the Department of Defense (DoD), without formal justification, and which are unrestricted by normal 8(a) award ceiling provisions (FAR 19.808-1).

DIRECT AWARD LIMITS - NON-PROTESTABLE (13 CFR 124.517)

Offers transparency in resourcing and price negotiation, and reduces procurement timelines.

$30M	$100M	$150M
Non-DoD Agencies up to $30M without J&A	DoD, NASA, and Coast Guard up to $100M without J&A	DoD, NASA, and Coast Guard up to $150M with Agency approval

Accelerated aquisitions ≤(30 days)

Non-protestable procurements

A sole source procurement under the provisions of FAR 19.805-1(b)(2) and 13 CFR 124.506(b), provides federal agencies with a streamlined and flexible procurement strategy.

- U.S. DEPARTMENT of AGRICULTURE

CSCS SOLUTION EXAMPLES

CSCS designs, develops, and produces advanced technologies and systems that enable the meeting of national security, critical infrastructure protection, and expeditionary and remote area essential supply chain distribution and transportation missions.

CSCS integrates, operates, maintains, and enhances supply chain technologies within government organizations, including enterprise resource planning (ERP), distribution requirements planning (DRP), asset and inventory management, warehouse management system (WMS), transportation management system (TMS), distribution requirements planning (DRP), and related software and services.

CSCS has extensive experience in Agile Development, Security, and Operations (DevSecOps) software engineering services, supporting traditional operation and maintenance (O&M), modernization and enhancement (M&E), and Data Analytics/Visualization requirements.

CSCS delivers experienced a range of professional and administrative services that optimize federal agency programs and projects.

CSCS meets government technical and professional requirements that rely on process controls, Lean Six Sigma, and other supply chain industry best practices that relate directly to managing the flow of immigration and legal cases, records, FOIA/PA cases, and other information.

CSCS provides Adaptive/Additive Manufacturing solutions and services to support modern and aging platform and system material components and part supply chain needs.

CSCS delivers specialized engineering and construction solutions, with in-house talent and expertise in marine and civil engineering environments.
